

GIBLIB- Medical

Activity Description

GIBLIB is an educational, streaming media platform offering the largest library of on-demand medical lectures and surgical videos in 4K and 360-degree virtual reality. These educational videos, developed with Mayo Clinic expert physicians and surgeons, are designed to provide the most current medical topics and surgical procedures to medical professionals and students worldwide.

Target Audience

This activity is appropriate for physicians, surgeons, physician assistants, and nurse practitioners

Learning Objectives

1. Identify appropriate patients for chronic opioid therapy versus patients who should be tapered
2. Identify and describe management of common low back injuries in the athlete
3. Describe a practical approach to complex decisions about osteoporosis management in the older patient populations
4. Describe updated recommendations for BP goals in the elderly and other patient populations
5. Summarize recommendations for managing heart failure in a hospital setting

Accreditation Statement

In support of improving patient care, Mayo Clinic College of Medicine and Science is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC) to provide continuing education for the healthcare team.

Credit Statement(s)

AMA

The Mayo Clinic College of Medicine and Science designates this enduring material for a maximum of 410.5 *AMA PRA Category 1 Credit(s)*[™]. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Disclosure Summary

As a provider accredited by Joint Accreditation Interprofessional Continuing Education, Mayo Clinic College of Medicine and Science must ensure balance, independence, objectivity and scientific rigor in its educational activities. Course Director(s), Planning Committee Members, Faculty, and all others who are in a position to control the content of this educational activity are required to disclose all relevant financial relationships with any commercial interest related to the subject matter of the educational activity. Safeguards against commercial bias have been put in place. Faculty also will disclose any off label and/or investigational use of pharmaceuticals or instruments discussed in their presentation. Disclosure of these relevant financial relationships will be published in activity materials so those participants in the activity may formulate their own judgments regarding the presentation.

Please see educational content for complete listing of faculty disclosure information.
